

I had the pleasure of working with [ProjLocal] during the summer of 2021 where [they] helped us make improvements to our website. [They] had to learn our platform (Wordpress) and the details of our environment and picked it up very quickly. [They] created some new pages for the site, as well as modifying the content and design of current pages.

[ProjLocal]'s professionalism, enthusiasm and attitude made working with [them] a breeze. I appreciated [their] excellent and consistent communication. [They] performed everything I asked of [them] and offered to do even more. I'd recommend [them] to anyone looking for someone who is willing to jump right in and be positive throughout a task or project.

Margaret Andrews, Chair of IT & Communications, Boldly Me
