Appreciation to ProjLocal

Atten: Nihaal Konda

One Voice Ethnic Missions sends our thankful heart to the young high school students of ProjLocal who updated and wonderfully recreated our old website. Their help was unexpected, timely, and professional enough for us to have greatly more attractive website than before.

It was kind of strange and surprising for me to have a message from the Nihaal Konda regarding our website needs. When I heard the volunteering will of high school students to help the nonprofit organizations like us, I even doubted what I heard. I did not expect and even think about volunteers to work for our website even before I asked and sought for help. What is amazing is that they found and approached us to give their help. The team of ProjLocal must have pure and beautiful hearts to help those in needs. It is a great encouragement to know the high school team of ProjLocal.

Nihaal and his team responded promptly and effectively to our requests of revisions and corrections. The team's work was eminently professional with timely and effective assistance during the whole time of updating and revising the website.

I also found a deep maturity and humbleness of the team members as they handled the ideas of different designs and formats of the website that I wanted them to try. I appreciate their patience and flexibility to give us their best help with a great amount of labor and huge sacrifice of time in their busy schedule.

Finally, the work of the ProjLocal team is a huge encouragement and heartfelt support for our work for the ethnic communities here and other countries. I believe that ProjLocal will also greatly encourage others and bear a lot of good fruit as they continue to serve others. I hope to see many other ProjLocals come to help and grow together for the better world.

Thank YOU very much, Nihall and the team! May God bless and bless you all!

Sincerely,
Rev. Kieun Yu, Ph.D.
Director of Star Kids
C.E.O of One Voice Ethnic Missions
